Another “First” for Eagle Book Publishing Company to join dozens and dozens of “Firsts” received by companies founded by The Eagle Companies over the past sixty-five years. Here is an example...

“No Fiction – ALL Facts” about your “\$10,000 Refundable **Deposit**” are spelled out in detail in the paragraph 11, below, that was taken from a copy of the Company’s Distributorship Marketing Agreement, just like the one you will sign. When you read the eighteen-page Distributorship Marketing Agreement, you will see many other amazing “Firsts” that the Company will do for our Distributors that no other company you contact will do for you.

11. The Distributor is paying the Company the sum of Ten Thousand Dollars (\$10,000) as a deposit, in the form of a Cashier’s Check, on this date. The Company agrees to approve this Agreement within ten (10) business days from the date the Distributor signed this Agreement or return the Distributor’s Ten Thousand Dollars (\$10,000) Cashier’s Check with a letter of explanation as to why this Agreement was not approved. Upon approval, the Distributor agrees to pay the balance of Forty-Five Thousand Dollars

(\$45,000) on or before the ____ day of ____ 20____.

The Distributor understands that all payments must be in the form of a Cashier's Check. **Note:** The Distributor understands that when the Company approves this Agreement, the Ten Thousand Dollars (\$10,000) deposit, made on this date, is a **refundable deposit**. The Distributor selected the ____ day of ____ 2025 as the date the Company has agreed that the Company's Regional Marketing Director will begin one (1) day of classroom training for the Distributor and Distributor's three (3) member Marketing Team. Next, the Regional Marketing Director will spend one (1) day with each member of the Marketing Team in the field establishing Retail Dealers. The Distributor agrees to make the decision to ask the Company for the refund of their Ten Thousand Dollar (\$10,000) deposit or pay the Company the final payment of Forty-Five Thousand Dollars (\$45,000) forty-five days prior to the date the Regional Marketing Director is scheduled to begin training the Distributor and Distributor's Marketing Team. In the unlikely event that the Distributor requests a refund of their Ten Thousand Dollar (10,000) Deposit, the Company agrees to refund the Ten Thousand Dollars (\$10,000) to the Distributor on or before fifteen (15) days prior to the date the Regional Marketing Director is scheduled to begin training the Distributor and the Distributor's Marketing team.

If the Distributor decides to pay the Forty-Five Thousand Dollars (\$45,000) final payment, the Distributor will say, I want to be a Distributor. A Cashiers Check for Forty-Five thousand Dollars is

When you will read the Distributorship Marketing Agreement, if you haven't already, you will see many more amazing "First", which are...

You have a choice of being a full-time Hands-on Distributor or an Absentee Distributor. A Company Regional Marketing Director will come to your city. He will train you, and two Area Marketing Managers, if you are going to be a Hands On Distributor. If you are going to be an Absentee Distributor, then he will train your three Area Marketing Managers. You will select a convenient location that you want the one day of classroom training to be conducted. The Regional Marketing Director will go into the field one day with each Area Marketing Manager, and you if applies, to establish Retail Dealers. Distributors should have the first Two Hundred Retail Dealers established in a maximum of three weeks. Distributor should make a Net Profit of enough to recover their \$55,000 investment plus, \$20,000 or more Net Profit from sales of the first Two Hundred Retail Dealers.

- You will receive 2,000 Playing Blackjack To Win “Second Edition” books, 20,000 brochures, 200 custom made Displays plus every marketing item your three Marketing Managers will need to establish your first 200 Retail Dealers. The money you receive from these first 200 Retail Dealers should create enough \$ \$ \$ to recover your \$55,000 investment and more than \$20,000 **Net Profit** in your first ninety days after the company’s Regional Marketing Director has completed the one week training your marketing team.
- I hate seeing “Made in China” on almost everything on the shelves. I am a Special Forces United States Marine. I spent six years protecting America. Playing Blackjack To Win Second Edition books, brochures and all printed items used by your

Marketing Team and used in your office are produced in America by Americans in Las Vegas Nevada – the printing capital of the United States. The custom-made displays holding the books and brochures are manufactured by a company in California that I have been doing business with for over fifty years.

It is most likely that you are not a gambler and do not understand why *Playing Blackjack To Win Second Edition* will make you a **Guaranteed Net Profit** of over \$100,000 the first twelve months your Distributorship is in full operation. You will see twelve pages located in “this website” from the casinos, that will educate you on the casino industry and tell you that Blackjack is the number one table game in Every Casino In The U.S. One source that we have has information on most every type of gambler, has **1,550,000** names and email addresses of Blackjack Players. That is an average of over **75,000** Blackjack Players in **each** of our **twenty** marketing areas. All of this is available for your review. Another national publication is one of Americas leading publications on gambling “Key Gambling Stats And Facts In The U.S.” is in this website for your review. One of the Facts, you will read about is **84 Million** people playing at casino’s in the U.S. That averages a mind blowing 4,200,000 gambling in each of our twenty marketing areas. I think you will agree, that is a lot of prospects to grab a copy of *Playing Blackjack To Win “Second Edition”* in your **marketing area!!** By now, you should agree that you will have a Distributorship in number one most popular business in America.

I mentioned that the Company guarantees every Distributor will make a Net Profit of **\$100,000** the first twelve months in full

operation. Here are the “Facts” taken from our Distributorship website.

You were probably surprised when you read in our Franchise Gator ad that the Company **guarantees** you that you will make a **\$100,000 Net Profit** in the first twelve months that your Distributorship is in full operation. If you don’t make the **\$100,000**, “**But You Will**”, the Company will give you a Cashier Check for the difference of your Net Profit and **\$100,00**, described in detail in your Distributorship Marketing Agreement. Other companies you visit would **never guarantee**, in their Distributorship or Franchise agreement, that you will make enough “**Net Profit**” in the first twelve months of operation to even recover your original investment.

I ask wise entrepreneurs, that clicked on our ad in Franchise Gator, why are you hesitating to buy **any** Franchise, or Distributorship much less an Eagle Book Publishing Company Distributorship – The Best Business Opportunity Being Offered? Their answers were almost all the same five concerns.

1. Politics: They weren’t sure that the next President would make America a better place.
2. The economy: The cost of everything has increased.
3. Products being purchased from China. They don’t trust China to not do something to effect U.S. products being made in China.

4. Completion for our product Playing Blackjack To Win “Second Edition”. When have you ever seen a book telling a person how to win playing Blackjack. Answer, None? Our marketing plan – described in detail in our Distributorship website. One million Playing Blackjack To Win “First Edition” books were sold, beginning in 1993 and remained, the number one publication teaching Blackjack players to be consistent Winners. for the next twelve years.

5. The most often concern is that very few, even though they were gamblers, knew very little about the gaming industry. Since it was named in 1990, the fastest growing industry in America and has remained for thirty-four years. Amazing – But true. The document website will show you the facts.

Here are the “Facts” – No “Fiction” about the five concerns listed above. The gambling industry does not have any bad “Days”, “Weeks”, “Months” or “Years”. All of the concerns listed in the five paragraphs have “**any effect**” good or bad on the gambling industry/ Facts in this website.

Who Are Your Customers? You will be surprised!

- Travel Plazas (Truck Stops) are truck drivers “home” away from “home”. Their favorites are Casino Hotels with all of the feature a trucker needs **plus** in most cases, a free hotel room and free food. The Casino Hotels know the driver makes \$100,000 to \$200,000 annually. Blackjack is also their favorite game but very few are consistent winners most consistently lose. They

will buy Playing Blackjack To Win “Second Edition” so they can learn how to be a “consistent winner”.

- Business and pleasure travelers **must** stop for fuel plus snacks at a convenience store or Travel Plazas - many with restaurants. A display with Playing Blackjack To Win “Second Edition” book and **Free** brochure by each Retail Dealers register. They will also stop at hotels and restaurants on the highway.
- Travelers and people attending conventions in luxury hotels will find a display with Playing Blackjack To Win “Second Edition” books and brochures in the gift shops.
- Ninety-five percent of the millions of Blackjack players are consistent losers!! They go to casinos more often, trying to be a consistent winner the way consistent winners do. They lose all the money they have. Good news for our Distributors. You can live by my favorite words: “Helping People Help Themselves”. You will be helping “**Consistent Losers**” by having Playing Blackjack To Win “Second Edition” books available everywhere so they can buy one and “Help Themselves” by learning how to be a “**Consistent Winner**” in place of remaining a “**Consistent Loser**” like they are now.
- “**Surprise**”: College student, many not 21 years old legal gamblers, guys and their girlfriends by the thousands are in the casino every week-end!! They have Daddy’s credit card and

will buy Playing Blackjack To Win “Second Edition” book in a heartbeat, so they can be **consistent winners!!**

- Here is Free \$10.00 by the hundreds for every Distributor. Travelers will grab a **Free** Playing Blackjack To Win “Second Edition” brochure and order the book. Every brochure has the Retail Dealer number stamped on it. The Company’s “Mail Order Department” will ship the book and Accounting will credit the Distributor \$10.00 for every sale that has a Retail Dealers number that came from each Distributors Marketing Area.

Problem Gambling Statistics In The US

According to the problem gambling stats for the US in 2022, it was identified that around 2 million adults in the U.S. meet severe gambling issues criteria, that is, this amount of population can be considered as having gambling addiction.

Another 4 to 6 million American adults have mild or moderate problems which means that they either have a couple of symptoms of gambling addiction or experience milder influence of their compulsive gambling behavior.

Moreover, the gambling addiction stats in the US show that 3% to 5%, or 5 to 9 million people, will, at some point in their lives in the future, report a subclinical problem connected to problem gambling. This means that some gambling disorder symptoms are present in these people but the psychiatric diagnosis is not warranted and therefore, these people will have difficulties deciding whether they need professional help.
